## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 17, 18 and 19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

3. The phrase X in said concentrate does not exceed the value  $n \cdot 1\%$ , where  $1 < n < 40$  is unclear. It appears that "1" is the numerical equivalent to one, yet applicant is assigning "1" a different numerical value.

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-12 and 15-20 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Bertelli et al, US Patent No. 4,710,528.

Bertelli et al discloses a polymeric composition comprising 68-98.9% of a thermoplastic polymer that may be a polyolefin, 0.1 to 10% of a bismuth compound including (bismuth phosphate), 0-1% of a free radical promoter and 1-30% of melamine bromohydrate. See the abstract, col. 1, line 35 through col. 2, line 12, and claims 1-5.
